

## Language Career Fair – May 17<sup>th</sup>, 2016

We are pleased to inform that the fourth edition of language Career Fair "Kariera na Językach" will be organized by the Careers Service of Adam Mickiewicz University in Poznań on May 17<sup>th</sup>, 2016. The event will take place at the Faculty of Modern Languages and Literatures and Faculty of English.

A wide range of activities is planned during the career fair – to begin with exhibition stands, through trainings, workshops, career consulting points, to end with competitions. Taking part in the event is an excellent opportunity for your company to build your brand among the students as a potential employer and above all to reach directly students and graduates of various universities in Poznań, especially those speaking foreign languages.

From year to year this project is becoming more and more popular not only among the companies representing different industries, but also among young people from few universities situated in the city of Poznań. We would like to invite you to participate in this great project involving the entire academic community.

We hope that our offer will be of interest, and Career Fair will provide a further opportunity to strengthen co-operation between science and business.

Please, do not hesitate to contact us by email or telephone (e-mail: [bkarier@amu.edu.pl](mailto:bkarier@amu.edu.pl), phone + 48 61 829 24 95) in order to discuss our offer in detail.
